

NSF Graduate Research Fellowship Program Workshop Series

Want to hone your proposal writing skills and confidently [submit a National Science Foundation \(NSF\) Graduate Research Fellowship Proposal \(GRFP\) *this fall*](#)?

*The GRFP is a competitive federal funding opportunity that supports future leaders in STEM, including **\$37,000 annual stipend** for 3 years and **\$12,000 annually for tuition**!*

Join the Office of Research Development (ORD) for this **7-week series**, starting *August 20th*, where we will walk you through writing your proposal. Includes:

- Step by step instruction for mastering proposal writing
- GRFP-specific tips & tricks
- Faculty review

With the goal to submit your best application by the mid-October due date!

Workshop is intended for final-year undergraduates planning on applying for graduate school and 1st & 2nd year graduate students (*eligibility requirements apply*).

Please [contact](#) Dr. Helaina Owens (helaina.owens@montana.edu) with questions. [Apply for workshop participation via InfoReady by August 11th](#).
