

Appropriate Use

The Stem must point to the right

Gallatin County

When resizing the clover only use the corner to keep the right proportions

Gallatin County

This is ok since it is not the Official Emblem with the H's in each leaf.

Inappropriate Use

You can not put something over the top of the clover

Even though it makes a nice framed look the stem can not point left .

The clover can not be water marked and no writing over it.

Do not rotate the clover.

The chart above shows some examples of how to use the 4-H emblem in a proper way. If you have any questions about branding and how to use the 4-H emblem and the Montana State University Extension Logo please ask. The clover can be in a couple different colors such as white, black and metallic gold. Once again please check with the office before you have something made or send something out to the public.
